Pipettes, serological

Pipettes, serological, disposable, polystyrene

Sterilin pipettes are available either bulk or individually packaged. The pipettes feature both negative and reverse graduations and have a non-wettable polystyrene surface to prevent readings from being distorted by a meniscus effect. Certified non-pyrogenic to <0.25EU/ml with an accuracy of +/-1% the pipettes are assured sterile by gamma irradiation.

Pipettes Standard – Plastic Peel and Bulk

| Cat. No. | Code | Description | Inner Pack | Case Qty. |
|----------|--------|---|---------------|--------------|
| PS/16110 | 40101K | 1 ml pipette, single wrap (shelf pack 100) | 1 | 1000 |
| PS/16112 | 40102K | 2 ml pipette, single wrap (shelf pack 100) | 1 | 1000 |
| PS/16118 | 40105 | 5 ml pipette, single wrap (shelf pack 100) | 1 | 200 |
| PS/16218 | 47105 | 5 ml pipette, single wrap with suction adapter (shelf pack 50) | 1 | 200 |
