Micropipettors, variable volume, digital UNI

A simple to use, affordable micropipettor range, 0.5 μ l - 10ml, with excellent accuracy and repeatability. Large, easy to read digital readout and the facility to re-calibrate at the bench reduces the need for expensive servicing. Blowout definition is excellent, with a visible marker, making the UNI ideal for student use.

Excellent value for money, tip eject facility, easy volume change and small enough to fit all sizes of hands.
