

Dishes

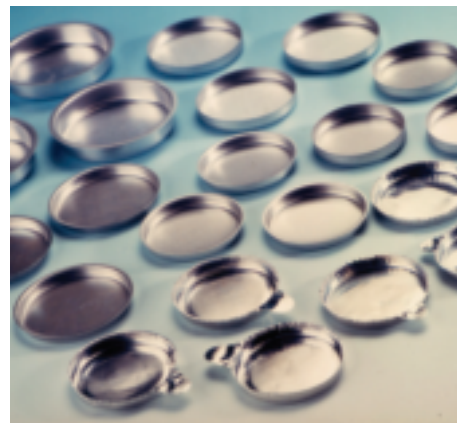

Dishes, aluminium

- Inexpensive to use.
- Ideal for solids testing.
- Protects balance pans.
- Suitable for temperatures up to 450°C.
- Can be used in pairs for covered samples.
- Non-static.
- Three sizes available.

Unlike silica, glass and porcelain, these expendable aluminium dishes are unaffected by thermal shock; this may be why they are being used by our customers in ever greater quantities for any process where a quantity of sample is required to be weighed, tested, cooled or evaporated - in fact explored in any way. All sizes have a flange.

Cat No.	Code	Size dia x depth x thickness (mm)	Qty. (approx)
DA/74024	04900319	57 x 10 x 0.2	250
DA/74026	04900304	42 x 5 x 0.2	500

For Petri dishes, please see page 314.

Dispensers

Dispensers, bottle top, BibbyPet

- Economical
- Semi-automatic
- Replaceable dispensing cartridge and valves

The BibbyPet is a new bottle top dispenser with an innovative design concept that makes it a real low cost alternative for routine dispensing. Based on a replaceable polypropylene/polyethylene dispensing cartridge the BibbyPet is ideal for use with aqueous solutions, alkalis, dilute acids and polar solvents such as ethanol or acetone. Both the dispensing cartridge and valves can be quickly and easily replaced. The BibbyPet has a 45mm thread and is supplied complete with adapters for bottles with 32mm and 40mm threads. Both the 10ml and the 25ml versions have an accuracy of $\pm 1.2\%$ and a repeatability of 0.2%

Cat.No.	Code	Description
DI/13002	BD10	10ml capacity BibbyPet with 0.2ml setting
DI/13004	BD25	25ml capacity BibbyPet with 0.5ml setting
DI/13006	BD1010	Dispensing cartridge 10ml, pack of 3
DI/13008	BD1012	Dispensing cartridge 25ml, pack of 3
DI/13010	BD1014	Discharge tube
DI/13012	BD1016	Suction tube, 250mm, pack of 2
DI/13014	BD1018	Suction tube, 500mm, pack of 2
DI/13016	BD1020	Valve set, including seals
