Safety, bench protection

BENCHGUARD®, bench protector

- Highly absorbent paper ideal for protecting work surfaces against accidental spillages of damaging chemicals and biohazards
- Plastic coated underside to prevent soak through
- Available in roll or sheet form and supplied in easy to use dispenser packs
- BenchGuard® Extra has double the absorbency for use in more demanding applications

Cat. No.	Code	Absorption, ml/m ²	Dimensions	Pack qty
Benchguard®				
SB/17002	BG50	400	50m x 49cm roll	each
SB/17004	BG60	400	60cm x 49cm sheets	100
SB/17006	BG92	400	50m x 92cm roll	each
BenchGuard® Extra				
SB/17008	BG50E	1000	50m x 49cm roll	each
SB/17010	BG60E	1000	60cm x 49cm sheets	50

Trays and liners for bench protection and containment of spills

- Saves on running costs
- Contains liquid spillages
- Provides clearly defined work area
- Easily cleaned
- APET - environmentally friendly when incinerated
- Suitable for most hazardous spillages
- Anti-static and non-porous

Unlike disposable paper bench protectors, Scie-Plas Safety Tray Liners are re-usable. This reduces running costs and drastically reduces contaminated waste volume.

The rigid PVC base features specially designed stabilising edges and rounded corners for easy cleaning. Additionally, the Liner's non-porous surface allows valuable samples to be retrieved - something which is clearly not possible with absorbent paper protector
