Model G7883CD Professional Glasswasher with Dryer

The G7883CD washer disinfectant is a powerful freestanding or underbench glasswasher with a radial fan hot air drying unit. This unit provides thorough internal and external drying of laboratory glassware. The overall width of the G7883CD (900mm) is wider than that of the G7883 to accommodate not only the drying unit but also a drawer with 2 x 5 litre containers and a DOS60/30 dispenser pump for liquid cleaning agents.

Other than the above, features and benefits are as those of the model G7883 listed above.
